

WATCH WHERE YOU'RE GOIN' - © Lee Reeves

Watch, watch, watch where you're goin'
You're steppin' all over my heart.
Watch, watch, watch where you're goin'
Don't cause the teardrops to start.
So please, please, take this precaution
And don't cause the teardrops to start
Do this I say, do this I pray
You're steppin' all over my heart.

So don't try to hurt me always
Save me a few lonely days
Surely you know it's not right
To torture my long lonely nights...

Chorus:

So watch, watch, watch where you're goin'
You're steppin' all over my heart.
Do this I say, do this I pray
You're steppin' all over my heart.

Break..

So don't try to hurt me always
Save me a few lonely days
Surely you know it's not right
To torture my long lonely nights..

So..watch, watch, watch where you're going
You're steppin' all over my heart
Do this I say, do this I pray
You're steppin' all over my heart.

Do this I say, do this I pray
You're steppin' all over my heart
You're steppin' all over my heart..
