

LET'S PRETEND - Malia Rosa

On a quiet summer's day
Long ago and far away
Two tiny tots, a games of play did end
As they gazed into the sky
Where the lazy clouds roll by
The little girl, said come and let's pretend.

Chorus:

Let's pretend those clouds are islands in the sky
And let's pretend that we're up there, just you and I
Let's pretend that no one knew, where to find us in the blue
Let's pretend our dreams come true, as the years go by.

As the years drift slowly by
Do they wander side by side
Or do their dreams into a future wind
Do they still recall the day
When she turned to him, to say
Darlin' take my hand and let's pretend!

Chorus:
